Professional Summary

Motivated and detail-oriented **Full Stack Developer** with experience designing and developing responsive websites, secure backend systems, and modern digital solutions using industry-standard technologies. Skilled in frontend development, backend architecture, RESTful API development, database management, authentication, and deployment. Passionate about writing clean, maintainable, and scalable code while creating intuitive user experiences.

Beyond technology, I am also a **Fashion Designer, Baker, and Entrepreneur**, experiences that have strengthened my creativity, attention to detail, customer-focused approach, project management, and business problem-solving skills. I enjoy combining technical expertise with creative thinking to build impactful digital products and deliver exceptional results.

Technical Skills

Frontend Development

- HTML5
- CSS3
- JavaScript (ES6+)
- Responsive Web Design
- CSS Grid
- Flexbox
- UI/UX Design
- Responsive Layouts

Backend Development

- Node.js
- Express.js
- Python
- Django

Databases

- MySQL
- MongoDB
- Supabase
- Firebase

Tools & Platforms

- Git
- GitHub
- VS Code
- Vercel

Other Technologies

- RESTful APIs
 - Authentication & Authorization
 - Database Design
 - Debugging & Troubleshooting
 - Version Control
-

Professional Experience

Full Stack Developer | Personal Projects & Freelance

- Designed and developed responsive, user-friendly websites and full-stack web applications.
- Built secure RESTful APIs for authentication, user management, and data processing.
- Integrated frontend interfaces with backend services and cloud databases.
- Designed scalable database structures using MySQL, MongoDB, Supabase, and Firebase.
- Optimized application performance through debugging, testing, and code refactoring.

- Deployed and maintained web applications using modern hosting platforms.
 - Collaborated with clients to transform ideas into functional digital solutions.
-

Fashion Designer | Bliss Juli Limited

- Designed and produced custom clothing tailored to client specifications.
 - Selected fabrics and developed garment concepts with attention to quality and detail.
 - Managed client consultations from concept to final delivery while ensuring customer satisfaction.
-

Baker | Bliss Juli Limited

- Produced custom cakes, pastries, and baked goods for various occasions.
 - Maintained high standards of hygiene, food safety, and product quality.
 - Managed customer orders, scheduling, and timely delivery.
-

Featured Projects

Portfolio Website

Technologies: HTML5, CSS3, JavaScript

Designed and developed a modern, responsive personal portfolio showcasing professional projects, technical expertise, animations, and interactive user experiences while following best practices for accessibility and performance.

Full Stack Web Application

Technologies: Node.js, Express.js, Supabase, Firebase

Built a full-stack web application with secure authentication, database integration, responsive user interfaces, and scalable backend architecture.

REST API Development

Technologies: Node.js, Express.js

Developed RESTful APIs supporting authentication, CRUD operations, validation, and secure communication between frontend and backend services.

Fashion Design Projects

Designed and produced custom fashion pieces combining creativity, functionality, and modern design trends.

Education

Secondary School Certificate (SSCE)

Oxfords International School

Core Strengths

- Full Stack Web Development
 - Problem Solving & Critical Thinking
 - Clean, Maintainable, and Scalable Code
 - Leadership & Team Collaboration
 - Customer Relationship Management
 - Creativity & Innovation
 - Business Management
 - Time Management
 - Adaptability & Continuous Learning
 - Strong Communication Skills
 - Attention to Detail
-

Career Objective

To contribute to innovative organizations by developing, and maintaining modern web applications that solve real-world problems. I aim to combine my technical expertise, creativity, and entrepreneurial mindset to deliver high-quality digital solutions, continuously grow as a software professional, and make a meaningful impact within collaborative development teams.
